

DEPARTMENT OF CHEMISTRY, INSTITUTE OF SCIENCE, BHU

B.Sc. Semester I: 2024-25 (NEP)

Mid Semester Test

Chemistry (CHEMJ11/CHEMN11: Basic Concepts of Chemistry – 1)

UNIT 1: Inorganic Chemistry

Maximum Marks: 7

Question 1. “The position of a particle in x -direction and momentum in y -direction can be measured accurately and simultaneously” – comment on this statement and write a relevant expression. [1]

Question 2. Calculate the effective nuclear charge on the outermost electron of Mn^{25} . [2]

Question 3. What are Eigen functions and Eigen values? Give one example for each one of these. [2]

Question 4. What are the conditions for the acceptability of the wave functions obtained by solving Schrödinger wave equation? [2]
